#### BASE BALL COMMENT.

The news from Toledo last night was When the bulletin came announcing the bare score, it was anticipated that the game had been one of fine playing, but this was a mistaken idea, for the game was loosely played, and Wheeling but two-thirds as many hits as Toledo and twice as many errors-yet the Stogiez were lucky enough to win. But whether loosely played or not, the vic-tory counts neither more nor less.

Wheeling ought to be able to part even at least in the series at Toledo. President Howell expects three out of four.

"Billy" Taylor, the ex-Wheeling in "Billy" Taylor, the ex-Wheeling in-fielder, last night accepted terms of-fered by the Detroit club of the West-ern league, and he leaves for the Mich-igan city this morning. It is likely he will play at short field, Elberfield hav-ing been suspended by Manager Stal-ings. Taylor is fast enough for the Western, and his friends believe he will make his mark at Detroit.

Pitcher Brashear, of the Louisville National League club, who was tele-graphed to for his terms by the Fort Wayne management the first, of the week, has signed and will report at once. He will no doubt strengthen the nitching department of the local team. once. He will no doubt strengmen the pilching department of the local team. A ticket was wired to Sheehan at Cleveland yesterday, and he will be on hand ready to go into to-day's game. He will play short and with Flood back at second things may go a little smoother than they have in the last few days.—Fort Wayne Journal-Gazatte.

There has been one more move on the Inter-state league checker board. The manager that threw down the league—Torreyson—is now playing his team as the "Springfield" team, the aggregation of missits having located at the Clark county capital. Just, how long Torreyson will last there is purely a matter of conjecture; the town may stand for him the rest of the season and it may not. If it does not, the chances are that the league "is bust," as the Frenchman says. That's 'the whole truth. Torreyson still has a little stock in trade. He has his unequalled nerve and Bradley. Bradley might sell for a few hundred dollars and then Torreyson could trade the rest of the bunch for a sandwich. The sandwich and a five-cent piece will last Torreyson all for a sandwich. The sandwich and a five-cent piece will last Torreyson all winter. Seriously, however, it behoves the Inter-state league to stamp Torreyson out. He and his lik are a menace to the organization had the league will never be prosperous so long as he is allowed to do as his sweet will dictates. President Power does not seem able to cuth Torreyson, and what is more, does not seem to try very hard.—Toledo Bee.

#### RACING IN THE MUD. A Hard Rain at Columbus, but Two Races Were Run.

COLUMBUS, Ohio, August 3.—Racing in the mud was the feature of the grand circuit meeting to-day. After three heats had been run, a heavy thunder storm came up, and drenched the track. The home stretch was a sea of mud for a short time, but the big crowd waited patiently until it had dried sufficiently to permit the horses to go. It was 5 o'clock before racing could be resumed, and the two events were finished before darkness interven-

#### A SUCCESSFUL CIRCUIT.

#### National Circuit of the L. A. W. Prov ing Profitable to Promoters.

Reports having been circulated to the effect that the L. A. W. national circuit has not been a success to date, the facts may be of interest to wheelmen, says the current issue of the L. A. W.'s press bulletin. The circuit started the latter part of June at Indianapolis, and press bulletin. The circuit started the latter part of June at Indianapolis, and has been taking in the cycling centres of the middle states. Every meet but one has resulted in a profit to the promoter. The exception was not disappointing, for it was the Fourth of July week at St. Louis, which had to be postponed to a week night. St. Louis is a notoriously bad town for cycle racing on other days than a Saturdhy or holiday, and the promoters carried out the programme rather than disappoint the circuit chasers. The meet at Janesville made money the first day, but on the second day it rained and the races were called cft. There was a dispute about the prizes and the professionals had to leave with \$245 still due them. Then it was that the League showed how it protects its riders. The men made complaint to Chairman Gerlach, who at orce placed the case it, the hands of a lawyer, with orders to collect. The promoters have withdrawn from their position, and have promised to settle without carrying the case to the courts.

Chicago had a most successful meet.

#### THE 1000 MILE RECORD

Of Edge Beaten by Hansen at Minne-

apolis.
MINNEAPOLIS, Aug. 3.—The world's bicycle record for 1,000 miles held by T. A. Edge, of London, England, and made over an ordinary turnpike road, has been broken by A. A. Hansen, who fin-ished his long ride early this morning, covering the distance in 92 hours 44 isned his long the early this monthly covering the distance in 92 hours 44 minutes. The time made by Edge was 105 hours 19 minutes. It may be questioned whether Hansen will be accorded in all quarters the world's record, as he rode over a boulevard while Edge made his ride over an ordinary road. At the same time it is questionable whether Hansen's path was at all superior to the hard macadam of the English country road. Hansen had one very bad bridge to climb twice in every forty mile trip, and there were spots in the trip that would disgrace any wagon road. The Minneapolls rider finished at 2:54 this morning, after having been actually in the saddle 73 hours. In order to make the thing sure as to distance, Hansen was sent another twenty miles after completing his ride. Hansen finished in very good condition, considering the severity of the task he had in hand. The handlers do not anticipate that any evil effects will ensue.

Ex-Manager of Michael Says "Out-

Inws Have Made a Mistake.

Dave Shaffer, Jimmy Michael's exmanager, who is a Wheeling man, and one of the shrewdest men in the cycle racing business, coramenting on the "outlaws," says: "The men are on the wrong tack, and they will find it out soon, if they do not know it now. The wrong tites, and they were the soon, if they do not know it now. The L. A. W. stands for respectability and is not a money-making institution. You can always be assured of fair treatment at the hands of the League. The other fellows are out for the colin, and if they ever got things their own way the riders would have to knuckle down and put their necks in the collar. It is a wrong idea to allow track-owners to have anything to say about the governing of the sport, and the outlaws will soon find themselves riding for meagre purses or else have to quit the game. "When the movement was first started I was asked to take a hand in it, but I told the men they were foolish and they would be sorry for the step they have taken. And I am going to live to see them in that condition. Hardly a week passes without a letter from some of the men beseeching me to join them. but I tell them the L. A. W. is good enough for me."

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine would cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; new does her own housework, and is as well as she ever was. The farmer who keeps bees plants buckwheat handy to the hives. He understands that to put flowers rich in honey where the bee can get them with lesst effort, means an increase in the quantity and quality of the honey garnered in the hives.

It is on this principle that Dr. Pierce's Golden Medical Discovery increases the quantity and quality of the nutrition of the body. The ingredients of this medicine are selected to furnish the blood and stomach with the essential materials for body building, in a concentrated and assimilable form. They make the conditions under which the stomach and organs of digestion and nutrition must work, as easy as possible, and so reduce strain and waste. As the strength of the body is re-established disease is thrown off. It is due to this fact that persons with weak lungs, obstinate cough, bronchitis, and other diseases, which if neglected lead to consumption, find a complete cure by using "Golden Medical Discovery."
